(b) The letter justifies installation of the electronic exchange at Raniganj on the grounds;

(i) Sufficient capacity and demand exists at Raniganj.

(ii) Far lesser towns of Alipur Duar and Sainthia have been provided with electronic exchanges.

It is mentioned that the capacity of the electronic exchanges under installation at Alipur Duar and Sainthia are 600 lines and 400 lines respectively. These exchanges have been imported. The capacity of such imported exchanges are generally in the range 400—600 line. Raniganj, however, has already 1300 lines exchange as on 31-3-87.

The indigenously manufactured electronic exchanges of the type required at Raniganj are not generally viable below 500 lines capacity. Hence, it has not been possible to allot electronic exchange at Raniganj.
